Professional Experience

Software/FileMaker Developer - *DocuWrx Corporation*

- Responsible for designing, developing, deploying, and maintaining custom web, mobile, desktop, and database applications with FileMaker Pro Advanced and FileMaker Server.
- Performed RESTful integrations with Stripe, EasyPost, Mailchimp, Paypal, and Google APIs to extend the functionality of the company's primary SaaS based ERP Management Suite.
- Worked with clients and other developers through several aspects of the Software Development Life Cycle (SDLC) to take projects from conception to completion.
- Installed, configured, maintained, and updated server plugins and applications to stay up to date with modern practices and security updates.

Software Contractor/Consultant - *www.nanaopoku.com, DocuWrx, Addison Group*

- Developed a personal website to market services, showcase work, and generate leads.
- Worked with agencies and software development firms to carry out contract work and implement custom software solutions for individuals and businesses with special needs.
- Installed, configured, and maintained servers to host web, mobile, desktop, and database applications with cloud computing services such as Microsoft Windows Azure.

Software Developer Intern

- Built and integrated a desktop and iPad Point of Sale system to collect accept payments into the company's primary Enterprise Resource Planning (ERP) application.
- Installed an audit logging system to track user activity, store historical data, and maintain integrity in one of the company's top selling cloud based applications.
- Worked with other developers to design, create, and implement a procedure to ensure smooth delivery of automatic updates to clients.

Certifications

- FileMaker 15 Developer Essentials
- FileMaker 14 Developer Essentials
